

Fall 2017: Drug Overdose Prevention Mini-Grant Projects

Sojourner House, Providence

This project will provide overdose prevention education and naloxone administration training to victims of domestic violence and victim service providers at the Sojourner House and the Rhode Island Coalition Against Domestic Violence (RICADV).

Thundermist Health Center, Warwick

The Thundermist team will develop clinical guidelines and interventions related to the use of Subutex in pregnant women and best patient care practices for women of child-bearing age. They will provide the training to MAT providers statewide and conduct outreach to local organizations that serve women of child-bearing age that may be at risk for substance use disorder.
